AV & TECHNICAL REQUIREMENTS

A SIMPLE, FLEXIBLE SETUP FOR YOUR EVENT

01 PRESENTATION

Mat can present from his own laptop using a standard HDMI connection. Please provide an HDMI input at the stage or presentation position.

He can also supply the slides in advance as PowerPoint, Keynote, PDF, or a flattened deck in your preferred format. A house computer and clicker are welcome.

02 AUDIO

A wireless lavalier microphone is preferred. Please provide house sound appropriate for the size of the room.

03 STAGE & DISPLAY

A confidence monitor and countdown clock are appreciated when available. Mat does not require a podium.

04 AV CHECK

When possible, please allow a brief pre-event check of the presentation feed, microphone, slide advancement, and stage setup.

Mat is happy to coordinate directly with your AV or production team in advance to make setup simple and seamless.
